

Day 1: 15 November 2023 – Training Day

Rhapsody Integration Engine Product Training Course

The Rhapsody CONNECT class focuses on getting the most out of your Rhapsody engine. This includes best practices for optimization and efficiency, and JavaScript features that have recently become available in Rhapsody Integration Engine.

In this instructor-led, one-day class, we will discuss the importance of best practices, and look at ways you can use the new JavaScript features to enhance your solutions. At the end of this class, you will have the knowledge to optimize your Rhapsody interfaces and better use the features in JavaScript to build interfaces.

The cost of the course is 1,600 NZD / 1,500 AUD / 1,350 SGD. Attendees need to bring a laptop in order to complete this course.

Who should attend?

- You should have a Rhapsody Associate certification (but it is not required). A modest understanding of JavaScript is expected.
- Creative developers or managers that want to expand the scope and the value that their integration department brings to their organization.
- Anyone interested in enhancing their Rhapsody interfaces, optimizing their current environment, and making their Rhapsody configuration more resilient.

Agenda

Timing:

- Start at 9:00 and end at 16:00 with breaks and buffet lunch.

Best Practices

- Understand the role that Best Practices play in the configuration and maintenance of a Rhapsody solution.
- Discuss common Rhapsody best practices.
- Activity: Inspect an example solution in Rhapsody to identify best practices in use.

JavaScript

- Discuss features added to JavaScript that are benefit to Rhapsody.
- Activity: Build an interface using the new JavaScript features.

Day 2: 16 November 2023 – Conference Day

Time	Session	Description
9:00 – 9:15	Welcome to Rhapsody CONNECT	Welcome Rhapsody 2023 Update Goals for CONNECT
9:15 – 10:15	Rhapsody Integration Engine Recent Releases and Roadmap for the Future	Hear more about the many under-the-hood changes of the latest release of the Rhapsody Integration Engine, the latest modernization efforts, and the future direction of the product.
10:15 – 11:00	Data Exchange to Data Quality and Beyond	Learn more about how the Rhapsody Interoperability Suite enables healthcare organizations to move from data exchange to build ecosystems that not only move data but help them connect, classify, and clean information for actionable, accurate adoption to improve clinical and operational outcomes.
11:00 – 11:15	Break	
11:15 – 12:00	Journey to the Cloud	Learn how Rhapsody helps customers migrate to the cloud to realize the benefits of a modernized infrastructure stack. Attendees in this session will dig into what it takes to ensure a seamless migration of integrations from on-prem to the cloud.
12:00 – 12:30	System Resiliency Explained	Deep dive into how Rhapsody architects in the cloud to ensure system resiliency in compliance with local requirements. In addition, Rhapsody experts will review cloud connectivity options and best practices for secure connectivity.
12:30 – 13:15	Lunch and networking	

13:15 - 14:00	Spotlight on FHIR Strategy and APIs	As organizations connect more and more apps and systems to the EHR, the adoption of APIs, including FHIR, is accelerating. In this session, learn how Rhapsody supports customers adopting FHIR and other APIs by supercharging the Rhapsody Integration Engine with the API Gateway and FHIR Server to ensure a scalable, secure, and reliable approach to management of API endpoints. In addition, learn how customers use Rhapsody Semantic to normalize codes to the standards used in FHIR.
14:00 - 14:30	Customer Showcase: eHealth Queensland	<p>Infrastructure: Implementing a high availability architecture for Rhapsody in a Linux environment – a journey to resilience.</p> <p>Testing: Creating a robust test framework for Rhapsody implementations in an ever-changing complex enterprise environment.</p>
14:30 - 14:45	Break	
14:45 - 15:15	Best Practices: Rhapsody Integration Engine	Gain insights from Rhapsody experts on best practice for building, maintaining, and monitoring integrations, routes, and more.
15:15 - 16:00	Technical Roundtables Session	Bring your questions to this breakout session featuring discussions with Rhapsody subject matter experts.
16:00	Networking Event
